Abacus & Vedic Arithmetic Study

Everyday students around the world go for Maths tuitions. They do not HATE Maths, but they get upset at Maths being DIFFICULT, NON-INTERESTING and CHALLENGING. We at AVAS try to make Maths a loved by subject for every child by a prescriptive learning program. Using Abacus and Vedic Maths.

We EDUCATEVALIDATE..... & EVALUATE

Education Strategy: We use a unique combination of mental, verbal, visual, tactile & written techniques to help children learn maths in a different way.

Some facts about the brain

Abacus helps in :

- Removing the phobia of mathematics
- Developing Concentration
- 360° Brain Development
- Improving Memory
- Generating Self Confidence
- Children adopting a skill to do the calculations swiftly which will provide them an edge in the future.

Abacus: Stress free education technique for right brain development

It is scientifically proven by doctors that the human brain undergoes 85% of its development during the age of 5-14 years. Abacus is one of the best Chinese Tools used for right brain development of a child. While using abacus, expect smell and taste, all our senses are used simultaneously helping there by a child with overall development.

The skills of visualization, concentration followed by listening skills, self confidence, sharp memory, speed, accuracy, decision making are enhanced remarkably. It is one of the proven methods by the doctors of neurology to create powerful sensory stimuli and improve the cognitive performance & synapses formation in a child.

Thanks to AVAS

"I first noticed her improvement when her dad and I were discussing grocery shop bill and noted some mistake in total, when we were speaking out the price of each item, and with last item price, her immediate response was the sum of all which was 100% correct, I was so impressed by her response... This may seem as just simple math to you, however, my 11-year-old would not have been able to calculate that just a few months prior." Swarnita

Feedback of Rohan's mother on Prize Distribution of AVAS

I feel very proud & delighted when I came to know that Rohan is selected for Prize distribution at Delhi. When we reached IIT Delhi with Rohan, I felt like that our dream comes true after reaching IIT Delhi because it was a dream for every student to read in IIT.

When we reached in Premithia Hall, we came to know about the great mathematician Srinivasa Ramanujan. We also came to know about his contribution in the field of mathematics especially in algebra, his struggle in his life, his super intelligence is all about his life.

After telling about Ramanujan, there was some cultural event in which they told us that there are mathematicians in our daily life & maths is every where. After the cultural event, Prize was distributed among the children from various schools. I felt very proud on Rohan when the Prize was given to Rohan, because he topped his level of abacus in his school.

Overall it was a great experience to go to IIT Delhi for Prize distribution and I feel really thank AVAS to organize such event.

Shakshita

I wish if I could also learn Vedic Maths in my School

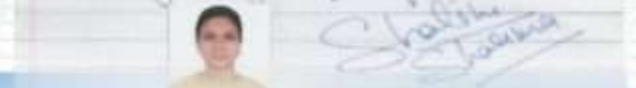

She loves to attend her Vedic Maths classes; she would get anxious and frustrated just talking about math before. Now she feels more confident about her ability and relaxed about the subject." Arun

I am Happy

My daughter absolutely loves Abacus, All thanks to AVAS and her school for giving this platform to her. Kanika's confidence has improved tremendously in all her subjects. Abacus has not only helped in maths, it's helped in all her subjects. All of Kanika's grades have improved. Thank you AVAS!" Aaradhika

I first noticed her improvement when her dad and I were discussing grocery bill and we found some incorrect details like we were charged highly suddenly. Finally my son responded with proper calculation which item is wrongly charged and up to what amount I was so surprised by his response which was not possible for 9 year old child without any aid while calculating it just happened in a simple way by AVAS'S AVAS'S.

I thank to his school for learning such degree of a platform.

Very True I am Pressed,

I just wanted to send you a quick note regarding Rehani's maths grade this last grading period. Rehani has always made A's or B's on her report card in maths but she has never made 100%...I am pleased to inform you that this last grading period she made 100%! Rehani loves maths now, due to Vedic Maths. I think she is really starting to see the benefit of it. Thanks for all that you do and keep up the good work."

Mamta

Name - Aashi Jain Father's name - Mr. Rakesh Jain
Class - VII - A School - Himalaya International School
Roll no - 1

I just wanted to send you a quick note regarding Aashi's maths grade this last grading period. Aashi has always made A's or B's on her report card in maths but she has never made 100%...I am pleased to inform you that this last grading period she made 100%! Aashi loves maths now, due to Vedic Maths. I think she is really starting to see the benefit of it. Thanks for all that you do and keep up the good work.

Aashi loves to attend her Vedic Maths classes; she would get anxious and frustrated just talking about math before. Now she feels more confident about her ability and relaxed about the subject.

S D Public School

Abacus Classes and Vedic Mathematics programme by AVAS is running in school for past three years. This programme enabled the 'special need children' of the school to improve their calculation skills and hence has raised their self-confidence and the interest in Mathematics.

(Anita Sharma)
Principal

BAL BHARATI PUBLIC SCHOOL, PITAMPURA

Students of Bal Bharati Public School, Pitampura have enrolled for the Vedic Mathematics Course & benefitted tremendously from it. I congratulate the team of AVAS for the commendable work they are doing to receive this magical traditional Indian Science of fast computation. The method is coherent, flexible, improves memory promotes creativity and increases mental agility of the students.

(Ms. Meenu Garg)
Principal
BBPS Pitampura

Delhi Public School, Bahadurgarh

Dr. Kulpreet Kaur
Principal

I congratulate AVAS for taking out their annual magazine. Five years of long association with AVAS has been enriching for my school students & parents. Child's mind is labeled as 'Tabula Rasa' – a clean slate ready to gain knowledge which has been adequately filled by AVAS (Abacus) coordinators, supervisors & teachers. I wish them all the best of all present & future endeavors.

BAL BHARATI PUBLIC SCHOOL, ROHINI

The Abacus Maths classes held for our students in the current session for classes I to III and have proved to be very motivating in creating an interest for Math in the minds of junior students. Such classes definitely remove the fear for Math and aid in understanding of the syllabus prescribed in the regular class room teaching of Maths. The work done as a part of Abacus has helped in increasing the mental ability of young students to solve mathematical calculations in an easy go manner.

(Alka Tandon Chadha)
HEADMISTRESS - PRIMARY

Sant Nirankari Public School

I would like to thank Avas for the Abacus of Vedic Math classes that are being conducted in the school premises children have learnt to solve their Math problems with the simple techniques taught to them. This has helped children to perform better & quicker Math is one of the subjects that majority children develop a phobia of Abacus and Vedic Maths is helping to wipe out the phobia for the subject. Avas is doing a great job by helping the children become friendly to a subject that has usually been considered the toughest subject.

Guru Harkishan Public School (Karol Bagh)

Realising the importance of cultivating, stimulating and nourishing the interest quotient of students in Mathematics, Abacus and Vedic Maths was introduced in addition to regular Mathematics classes during this session. It has been observed that there is a marked improvement in the calculation abilities of all the students from Std. I-X. The faculty of AVAS has been instrumental in bringing about this admirable integration. We wish you good luck in all your endeavors.

Karalpreet Kaur
Principal

South Point Public School (Haryana)

This is to certify that AVAS is conducting Abacus & Vedic Maths Classes in our school Since One Months. The classes are being organized in a very good manner. The methods of teaching is very understanding and nice. Students are talking interest in it and getting benefit from these classes. I thankful to Avas team for their services and I wish them all the best

Vedic Mathematics

Vedic Mathematics is the name given to the ancient system of Indian Mathematics which was rediscovered from the Vedas/sutras between 1911 and 1918 by Sri Bharati Krisna Tirthaji (1884-1960). According to his research, mathematics is based on SUTRAS or word-formulae. These formulae describe the way the mind works naturally and are therefore a great help in directing the students to the appropriate solution. This unifying quality is very satisfying, it makes mathematics easy, enjoyable and encourages innovation.

The simplicity of Vedic Mathematics means that calculations can be carried out mentally. There are many advantages in using a flexible mental system. Children can invent their own methods and they are not limited to one 'correct' method. This leads to more creativity and intelligent among children.

Interest in the Vedic mathematics is growing in education where mathematics teachers are looking for something better and Vedic mathematics is the answer. Vedic Mathematics build more confident and competent children possessing strong aptitude. It sets the stage for every child to at least make an attempt to appear for competitive examination

Vedic Maths help in :

- Removing phobia of Mathematics
- Fast Calculation by simple formulae
- Higher marks in Maths and Science
- Self Reliant & Self Confident Children

Robotics Laying the foundations for tomorrow's intellect

Robotics is a branch of Engineering that deals with the Science and Technology of robots, their design, manufacture, application, and structural disposition.

- The Programme is thoroughly researched and designed for students of class 4 and above.....
- Entire programme is mapped as per the school curriculum
- Opportunity to learn Inter-related concepts
- Help in Experiential learning for students
- More than 50 working models designed

Salient Features : AVAS

- Rubik's Cube- Enhances problem Solving Skills
- Robotics- Enhances Stem Education
- Memory Activities – Enhances memory power
- Concentration Activities Enhances Concentration level I children
- LSSE Classes- Enhances Life Skills for children living better lives.
